

## *Health Guarantee*

We offer this 24 month from time of whelping health guarantee for life threatening genetic problems as defined below. At the buyers expense the buyer agrees to have the puppy checked by a veterinarian within 96 hours of pickup or delivery. This is to protect both you and the breeder and confirm your puppy is healthy. If any serious illness or problem is found at this time, these problems must be reported to the seller immediately along with a copy of the vet exam. The puppy may be returned to the seller immediately for refund. If you do not return the puppy, CCK will not be responsible for any loss, replacement or refunds. CCK gives worming medicine at 6 and 8 weeks and has puppies examined and first set of vaccinations by our vet.

Should the Labradoodle, during the first 24 months be found to have a Hereditary Hip Defect or Hereditary Eye Defects or other life threatening genetic issue, the buyer agrees to have these defects documented by OFA or ACVO certified exam or vet specialist. In the event that these exams do show a verifiable inherited, positive genetic defect that would significantly shorten and or significantly affect the quality of life of the Labradoodle within the following 12 months of this exam, or OFA certification determines that the dog has moderate or severe hip dysphasia, and upon review by seller's veterinarian and confirmed, the seller will provide a replacement puppy or refund for the purchase price to the buyer at the discretion of the seller. If seller replaces the Labradoodle, the replacement will be of similar kind as to the one mentioned above as soon as one is available. The buyers are responsible for providing all reports, statements from licensed vet, and copies of relevant lab reports, relating to such disorders.

The buyer is responsible for any vet and testing examination expenses and or the return expense to the seller. Any evidence of abuse, injury, trauma, poor health care, or malnutrition will void this guarantee. In no case shall CCK be responsible for any expenses in excess of the purchase value of Labradoodle if applicable. The sellers/breeder will never be responsible for any shipping medical expenses once the puppy leaves the breeder unless agreed to in writing.

The buyer understands that the seller cannot guarantee that any Labradoodle will be 100% shed free or allergy free. While most Labradoodles shed little to none and are very allergy friendly, a puppy's coat and color can change until almost 2 years of age. The buyer understands that seller cannot guarantee the number of pups born in any litter, gender or colors expected. Both parties understand that this agreement and health guarantee is the entire agreement and no other representations have been made regarding this sale.

This agreement has been read and agreed to buy both parties signed below this \_\_\_\_\_ day of \_\_\_\_\_, 20\_\_\_\_\_.
